8.11 The reporting time (also known as ‘calling time’) will therefore be made way in advance of the start time. The most common time frame would be at least 30 minutes before the Start Time.

8.11 Teams are therefore required to be ready to race before the Reporting Time.
Be ready to race before the reporting time. You may be penalized for reporting late.

8.12 It is incumbent upon the Team Manager to ensure that he/she knows or is aware of the Reporting Time. The Team Manager is advised to monitor the announcements broadcasted over the PA system.

8.19 The racing crew must be properly attired once they entered the Boat Marshall Area: proper footwear, PFD worn, paddles, seat pads. If the crew wants to bring drinks into the dragon boat, they are required to request for the Chief Boat Marshall’s approval.

8.20 After the racing crew has been assigned their racing dragon boat, it is incumbent upon the crew to inspect and check that the dragon boat is in good condition. i.e. no breakages, loose items, obvious signs of damage or non-functioning equipment.

8.21 It is incumbent upon the Boat Captain to report any contra-indications to the Boat Marshall before leaving the Boat Marshall Area.

8.22 If the situation warrants it, the Chief Boat Marshall may substitute the dragon boat or any of its equipment for the racing crew.
8.23 Note that once the racing crew departs the Boat Marshall Area in the assigned dragon boat, they will be held responsible for taking over a perfectly functioning dragon boat and related equipment.

8.24 Note that any equipment breakages or malfunction that occurred after the 50m recall point will be considered as part of race proceedings. Whatever results that came out of the incident shall stand.
